Nearly nine out of ten people say that better quality buildings and public spaces improve their quality of life, according to new MORI research published by CABE on its tenth anniversary.

A nice view in south east corner of the station is suitable for expanding and use for plaza. The capacity for new activity and setup new business in the future. There are lots of people but inside the international exhibition the problem is you should pay if you want to join them. Shrink the spaces in the winter and expand them in summer time in fact flexible spaces with sensitivity on climate aspect make good memories in summer and review them in winter.
